Yeah, I think so....just to acknowledge where we are. But it is being handled by OEI...so, stay tuned.

Hi Tina,

Sorry, got a little rushed there. You mentioned in your email OEI wanted to send a response to us. Is this the "Denka RFR is on hold pending outcome of IRIS' model review" or something like that?

Hopefully she is fine....this was not intended to be comprehensive and deliberative. The goal was high level capture of decisions/actions. The OEI folks want the notes posted ASAP so they can send their response to DPE.

T.

Unless Robinan has issues other than the one I raised (which is now resolved), I think we're good to go. Please wait until she responds though!

Hi Robinan,

Thank you for your timely review and for providing the Track Changes version. We accepted nearly all of your edits and made a few revisions in the attachment.

Our plan is to post to the EPA website this final summary and the Powerpoint files you provided, and those that EPA presented, hopefully this week. The materials are required to be 508 compliant and that process is underway now.

Please let me know if you have any questions.

John

Hi Tina,

The summary we provided was a clean version incorporating all of the comments from DPE/Ramboll; however, attached is a file with the edits to the summary in track changes.

Please let us know if you need anything else.

Best,
Robinan

Hi Robinan,
At least I am not able to see you edits/comments. Did you provide them in track changes?
Thanks,
Tina

John and Tina,

Please find attached a revised summary that incorporates comments from the DPE/Ramboll participants in the June 12th meeting.

Thank you for the opportunity to provide input on the meeting summary. Please let us know if you have any questions.

Hope you both have a great weekend!

Best,
Robinan

Robinan and Patrick,

As discussed at the June 12 meeting, we are providing summary notes from the meeting and the two presentations. Our plan is to post these materials to the EPA website after you've had a chance to comment.

Do you think you can provide comments within about a week?

Thank you,
John
